EDUCATION

BSc in Business Management

Khazar University

09/2016 - 01/2022 Baku, Azerbaijan

LANGUAGES

Azerbaijani Native ●●●●●

English Proficient ●●●●●

STRENGTHS

Continuous Learning

Dedicated to staying current with evolving frontend technologies and best practices through courses, workshops, and personal projects.

Problem-Solving

Expertise in debugging and optimizing code for better performance and user experience.

Effective Communication

Skilled in conveying technical concepts clearly to both technical and non-technical team members, enhancing collaboration and project outcomes.

SUMMARY

Passionate Frontend Developer skilled in crafting intuitive and visually stunning web experiences using modern JavaScript frameworks like React and Vue.js. Detail-oriented, with a strong focus on delivering high-performance, maintainable code. Adept at collaborating in dynamic environments and committed to staying ahead of emerging technologies.

EXPERIENCE

Intern Software Engineer (Frontend Developer)

Atl Tech 02/2024 - 05/2024

Collaborated with senior developers and designers to develop a web application for AzerEnergy JSC using Vue.js, TypeScript, TailwindCSS, and Vuetify.

Implemented key features and optimized application performance, contributing to increased efficiency and usability.

Assisted in debugging and refining code, improving the application's responsiveness and overall user experience.

INDIVIDUAL PROJECTS

Caffina (Coffee Shop)

<https://caffina-cafe.netlify.app>

Created a responsive, dynamic cafe website with React.js and TailwindCSS, integrating GSAP animations for an engaging user experience. Optimized with Vite, achieving improved loading times and performance scores, enhancing overall user satisfaction.

Portfolio Website

<https://ali-personal-portfolio.netlify.app>

Developed a sleek, personal portfolio site showcasing projects with a clean, component-based structure using React.js and TailwindCSS. Integrated GSAP for animations, improving the interactivity and visual appeal.

CERTIFICATIONS

The Ultimate React Course 2024: React, Next.js, Redux & More

Udemy / by Jonas Schmedtmann 07/2024

Mastered advanced React concepts, including state management with Redux and performance tuning, enhancing application efficiency and maintainability.

Advanced React Course by Meta

Coursera / by Meta 05/2023

Developed skills in advanced React patterns, reusable components, and API interactions. Focused on scalable state management and optimized application performance.

The Complete JavaScript Course 2023: From Zero to Expert!

Udemy / by Jonas Schmedtmann 02/2023

Mastered advanced JavaScript, including ES6+, async coding, and modern OOP. Completed 50+ coding challenges and gained expertise in tools like NPM, Parcel, and Babel.
